Memorandum for the record

[Translator's note: The upper left part of the title is missing on the reproduced copy because something was laid over it] of units for the "Anadyr" measure [a word or two missed]

September-October 1962

In connection with the requirement to complete the shipments for the "Anadyr" measure by 1 November 1962 and by additional dispatch of combat equipment (a squadron of IL-28 aircraft, three "Luna" battalions, a PRTB, and support units) an updated [*utochnennyy*] and accelerated schedule for the loading and dispatch of units for September and October for the "Anadyr" measure is being submitted.

The updated schedule envisions:

- an additional allocation of five ships for September to send the squadron of IL-28 aircraft, three "Luna" battalions, a PRTB, and their support units and two ships to transport special fuels (one ship in September and the second in October);
- the shipping front for loading missile units is being expanded – the loading will be done at three ports (Baltiysk, Nikolayev, and Sevastopol') instead of the two ports (Nikolayev, Sevastopol') planned earlier;
- the loading times for a majority of ships is being reduced from 6 to 4 days;
- the unloading times for ships at their destinations is being reduced.

The arrival of transport ships at their port of destination is planned to be by 1 November and only two transports – Kasimov and Krasnograd - with a missile division of the 668th Missile Regiment will arrive at designated place on 3 and 5 November.

General-Colonel

13 September 1962
